## What kind of car should I rent for my holiday in Portugal?

There are plenty of car rental options to choose from depending on your needs. Consider where you're travelling, how many people are travelling and the style of driving you intend to do. You can use the ACRISS system detailed above to find the car that suits your needs. This is an internationally recognised code that will ensure that you get the same standard of vehicle wherever you rent.

## Automatic and Manual Transmissions

Automatic and manual vehicles are available in Portugal, though automatic may be more expensive and suppliers may have fewer available.

## Collecting at an airport in Portugal

At most Portuguese airports, rental companies will have a desk in the arrivals hall and vehicles will be located within walking distance. However, at smaller airports you may be required to collect your vehicle from a downtown depot. Usually a courtesy transfer will be provided from the airport to the depot in this instance. Auto Europe Australia offer all-inclusive prices which generally include any location/airport fees that may otherwise apply. Remember to check at time of booking to ensure your rental will include all airport fees.

## Do I need a credit card?

Yes. A credit card will be needed for a deposit when collecting your vehicle. The deposit is generally the insurance excess of the rental car which can vary between \$385 and \$3,500 (+tax) depending on the category of vehicle you have booked and the rate type.

## Should I hire a GPS for driving in Portugal?

GPS hire is available from Auto Europe. Our rates include the GPS, Travel Guides and Entertainer; including MP3 player & audio book player. The GPS is delivered direct to your home or travel agent before you go. GPS units can also be requested directly with some suppliers, however this will be at their own rates. If time is short, or you would simply prefer to collect your GPS unit together with your rental, then this may be an option for you.

## Can I collect my rental car in one Portuguese city and drop it off in another?

Yes, this is certainly possible, though in some cases there may be a one-way fee which will be payable when you collect your rental. Check with Auto Europe upon booking to discuss any additional costs.

## Can I visit other European countries and return my car to Portugal?

Travel to surrounding mainland European countries and the United Kingdom is possible. There will likely be restrictions on travel to Northern European countries in winter, so please advise Auto Europe upon booking if you're considering travel to these countries. Most suppliers will not permit travel to Eastern European countries. If you are travelling outside the country, make sure that you advise Auto Europe at the time of booking for any restrictions that may apply.

## Can I pick up my car in Portugal and drop it off in another country?

Many rental suppliers in Portugal do allow one way rentals to other countries, however drop off fees do apply. Some suppliers that have rules stating their cars must be returned within the country. International one ways always need to be booked in advance.

## What do I do if I want to extend my car rental once I have already collected it?

Once the car rental has commenced, you will need to call the depot where you initially collected the vehicle for assistance. If the car is available to be extended, you will be offered extra days at the local rate.

# Rental Vehicle Insurance

## Rental Vehicle Insurance

Portuguese law requires all vehicles to have Compulsory Third Party (CTP) injury insurance, although your car rental supplier should already have comprehensive insurance covering their cars. In the case of an accident, it must be reported to the insurance provider immediately, and an excess may be due.

### Car Rental companies in Portugal will normally include:

- **Third Party insurance** and compulsory insurance will be included in your car hire rate. This covers you for other people's injury and damage to their vehicle.
- **Collision Damage Waiver (CDW):** This limits your financial liability for damage to the rented vehicle, and is normally included in the prepaid car hire rates. Rentals are often subject to a liability excess, which can be reduced at the time you collect your rental car or by taking out **Auto Europe Excess Refund Insurance**.
- **Theft Loss Cover:** This limits your financial liability for the loss or theft of the rented vehicle and is generally included in the prepaid car rental rates.
- **Fire and Liability:** This limits your financial liability for bodily injury or death, and is usually included in the prepaid car hire rates.
- **Personal Accident Insurance:** This covers the driver for personal injuries and is generally not included in your car rental rates. It is considered an optional extra that you can take upon collection of the car.

## Auto Europe Excess Refund Insurance

When renting a vehicle, the rental rates include basic insurance. However, in the event that the vehicle is stolen or accidentally damaged, there is usually an insurance excess amount which the driver is liable to pay to the rental company. To avoid any unexpected costs opt for Auto Europe Excess Refund Insurance which will offer a reimbursement for the supplier's damage and theft excess to a maximum for AU\$5,000. Simply add this onto your car rental booking prior to departure and you could save thousands of dollars in case of an accident. To find out more, simply call Auto Europe on 1300 656 601 or visit the [Auto Europe website](#).

*The Auto Europe Hire Car Excess Refund Insurance is managed by Accident & Health International Underwriting Pty Limited, ABN 26 053 335 952, AFSL 238261 and underwritten by CGU Insurance Limited, ABN 27 004 478 371, AFSL 238291.*
